

Bone Densitometry Request

PATIENT	
Name	DOB
Address	
REQUEST	
Item 12306 One service only in a 24 month period <input type="checkbox"/> Confirmation of a presumptive diagnosis of low bone mineral density made on the basis of one or more fractures occurring after minimal trauma. <input type="checkbox"/> Monitoring of low bone mineral density proven by previous bone densitometry. (low BMD is present when BMD > 2.5 SD below young normal mean or > 1.5 SD below age matched mean).	Item 12315 One service only in a 24 month period. Diagnosis & monitoring of bone loss associated with one or more of the following: <input type="checkbox"/> primary hyperparathyroidism <input type="checkbox"/> chronic liver disease <input type="checkbox"/> chronic renal disease <input type="checkbox"/> proven malabsorptive disease <input type="checkbox"/> rheumatoid arthritis <input type="checkbox"/> conditions associated with thyroxine excess
Item 12312 One service only in a 12 month period. Diagnosis & monitoring of bone loss associated with one or more of the following conditions: <input type="checkbox"/> prolonged glucocorticoid therapy <input type="checkbox"/> conditions associated with excess glucocorticoid secretion <input type="checkbox"/> male hypogonadism, female hypogonadism lasting > 6months before age 45 years	Item 12321 One service only in a 12 month period. <input type="checkbox"/> Measurement of BMD 12 months following a significant change in therapy for established low bone mineral density. (change in class of drugs rather than change in dose regime)
Bone Densitometry (BD), using dual energy X-ray absorptiometry, involving the measurement of 2 or more sites (including interpretation and reporting) for the measurement of bone mineral density, in a patient aged 70yrs or over. To be used only if no other BD item number applies:	
Item 12320 <input type="checkbox"/> The patient has not previously had a BD, or <input type="checkbox"/> Has had previous BD showing T-score of -1.5 or above Restricted to once only in a 5 year period	Item 12322 <input type="checkbox"/> Has had previous BD showing T-score lower than -1.5 Restricted to once only in a 2 year period
ROUTINE BMD MEASUREMENT	
<input type="checkbox"/> Includes all other indications. No Medicare Benefit applicable. Our normal fee applies
