## **Installation Instructions of Inteleviewer on MAC**

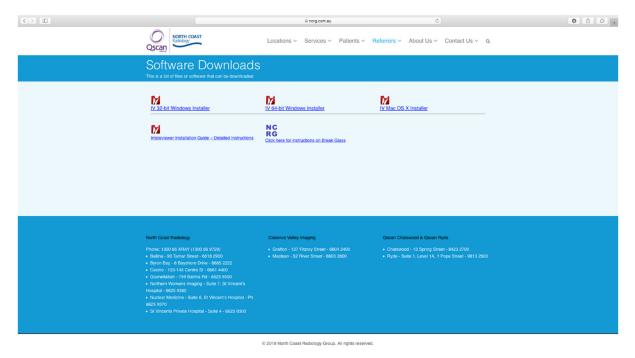

## Before commencing install:

- Check that the Apple operating system is Version 10.6.0 or greater
- Upgrade software if version is less

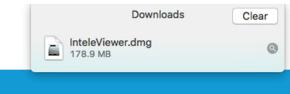

## Click on the below link or type the following into your web browser:

https://www.ncrg.com.au/referrer-support/software-downloads-2

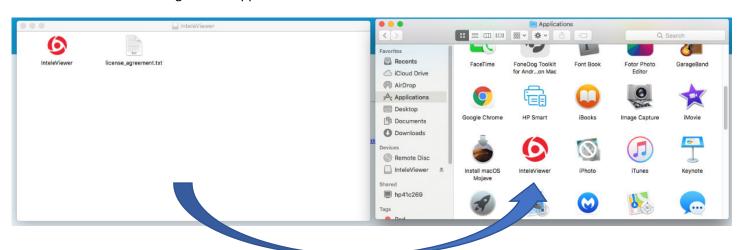

**Step 1:** Click on the MAC installer to download the Inteleviewer.dmg file.

**Step 2:** Once the download has finished, double-click on the 'Inteleviewer.dmg' file to begin the install. The file may appear in your downloads folder, or in the download toolbar in your browser.

**Step 3:** Open a Finder session (File>New Finder Window) and drag the Inteleviewer application from the disk image to the Applications folder.

**Step 4: Launching Inteleviewer** - To launch Inteleviewer, you must click the Inteleviewer application file from the Applications folder.

- Double click Inteleviewer from the Applications folder.
- A message will appear stating that Inteleviewer cannot be opened due to an unidentified developer. It will be one of two messages:
- a) If this, click open and continue to Step 6

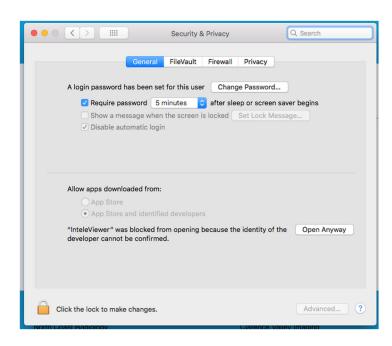

b) If this, click OK and continue to Step 5

## Step 5: Changing security preferences -

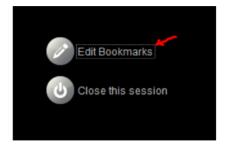

- Click on the search icon (top right corner of desktop)
- Type **security & privacy**, and press enter.
- In the 'General' tab, you will see a message saying "Inteleviewer was blocked", click **Open Anyway**

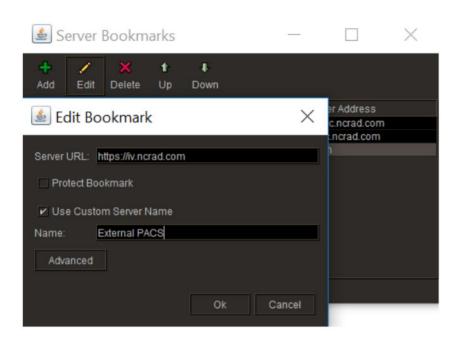

- This message will appear, click **Open** 

**Step 6:** Once launched, it will prompt you to input a bookmark. This will allow access to NCRG database. Click **Edit Bookmark** 

**Step 7:** Click **Add.** Enter **https://iv.ncrad.com** to Server URL. Enter Custom Server Name as you wish. For example, "North Coast Radiology".

**Step 8:** Login to Inteleviewer using supplied username and password from North Coast Radiology referrer support. If you don't have one, please <u>click here</u> to request access.

**Step 9:** Once setup is complete, open applications folder (Finder> New Finder Window>Applications) and drag the Inteleviewer icon from Applications folder onto desktop to create a shortcut for easier access to application.
